THE OFFICES

Milan

Opened in 1975, our Milan office is in the very heart of the city, ideally located for maintaining close contacts with the economic, business and banking communities.

Milan is ideally connected with all of Europe and the rest of the world through transport and infrastructural networks that converge on the city.

At our office in Milan all of the Firm's specializations are practiced and we are able to act as a single point of contact and management for cases and issues requiring a multi-disciplinary approach, as well as for litigation in any venue.

Rome

Established in 1983 and close to the main institutions, our Rome office covers all practice areas and, in particular, administrative, public and constitutional law, commercial law, energy law and litigation.

It has gained particular expertise in regulatory matters, including pharmaceutical, urban planning, competition, securities, media and telecoms.

It is also the contact point with the State Agencies, central Government and the Independent Authorities.

Our Rome office undertakes litigation in all domestic and Community jurisdictions (Supreme Court, Council of State, Constitutional Court, High Court of Public Waterways, Court of Auditors, Court of Justice and General Court of the European Union).

Bruxelles

The Brussels office was established in 1990, It provides assistance and advice, embracing all different areas of EU law, particularly on competition law matters, and works in direct contact with the Community Institutions and in cases before the European Commission, the General Court and the European Court of Justice.

The office boasts considerable expertise in regulated sectors, including pharmaceuticals, chemicals, biotechnology and energy and cooperates with prestigious Italian legal periodicals in relation to legislative and judicial developments at EU level.

Moscow

The Firm has had offices in Moscow since the late Nineties of the previous century.

The Moscow Office was established to offer legal services covering the Russian Federation, and the territories of the former Soviet Union. Chief areas of practice included commercial and corporate law, employment law, IP, tax, and dispute resolution. With the advent of the tragic Ukraine war and the dramatic changes in geopolitical outlook that followed, we exclusively reconcentrated on disinvestments and repatriation of funds for Italian and European clients, IP work and sanctions work clients. We duly comply with EU and domestic sanction and authorisation regimes, and do not represent sanctioned persons or entities.

The Moscow Office is staffed with resident lawyers fluent in Russian, Italian and English.
